Exxon catalytic coal gasification process predevelopment program. Final project report, NTIS.FE-2369-24 Phase I: The pipeline gas demonstration plant, Site selection report, NTIS.FE-2542-3

Development of a process for producing an ashless, low-sulfur-fuel from coal: Autoclave experiments. 0178 287 0271 0179

Coal conversion and utilization - liquefaction: Clean coke process (PDU stage). Technical evaluation services research and development report No. 82, Interim report No. 7, NTIS FE-1234-7 Engineering evaluation and review of consol synthetic fuel process, OCR.70 Synthetic coking coal, P.7703173 61 0276 0276 0272

Conceptual design for advanced coal liquefaction commercial-plant, Final Report, Vol. 2. Engineering Design, Part A, NTIS. FE-2251-40 1977, NTIS.FE-2267-2 0277 103 0277 111

Final Report of the General Motors Corporation powdered coal-oil mixtures (COM) program March 1975 - July

65

0277

Economic issues affecting the development of a coal liquefaction industry. Final report, January 1975 Issues relative to the development and commercialization of a coal-derived synthetic liquids industry. December 1976, NTIS.FE-1752-21

Catalyst development program for hydrodesulfurization and liquefaction of coal to produce clean boiler fuels. Annual Report, June 1976 - May 1977, NTIS.FE-2321-19 New twist for making products from coal Catalysis in coal conversion 0278 35 0278 49 0278 76 0277 122

Preparation of a coal conversion systems technical data book, Project 8979 Annual Report, May 1976 - April Catalytic hydroliquefaction of coals for hydrocarbon-type analysis in relation to refining 128

Economic system analysis of coal preconversion technology, Volume 4. Large-scale coal processing for coal Clean-coke process summary of bench scale studies, NTIS.PB-239 384 1977, NTIS.FE-2286-16 0375 0375 0278

Clean coke process: Process development studies. Annual report, July 1975 - June 1976, NTIS.FE-1220-15 Second Symposium on Coal Preparation conversion, NTIS.FE-1520-4

Coal Beneficiation, 1964 - Sept. 1977, NTIS.PS-77/0884 Armco puts No. 10 mine on stream. The Bearce Dryer goes commercial 0

Pyrite in Coal: Its forms and distribution as related to the environments of coal deposition in three selected West-Virginia, NTIS.N78-13265 High temperature turbine technology program. Phase I, Topical report. Low-Btu combustor technology development Conceptual design of an atmospheric fluidized-bed combustion electric-power generating plant. Interim report. Hot low-Btu producer gas desulfurization in fixed-bed of iron-oxide-fly-ash. Final report, July 1975 - April Sulfur resistant methanation catalyst. Final report for the period July 1975 - January 1978, NTIS.FE-2032-9 Development of the carbon-dioxide-acceptor process directed towards low-sulfur boiler-fuel, NTIS PB-210 840 Operation results of the IHI-chemico flue-gas desulfurization system for coal-fired utility power stations, Coal gasification process with improved procedure for continuously discharging ash particles and apparatus therefor, P.4073629 Development of high-temperature subsystem technology to a technology readiness state. Phase 1. Topical Phase 3 Preliminary turbine subsystem technology readiness verification program plan, NTIS.FE-2292-12 Coal humic substances and their application to pollution control in the synthetic fuels industry, The rates and mechanisms of pulverized coal combustion - First annual report, NTIS.SAND78-8234 Appendix: Cook-Inlet coal economics of mining and marine slurry transport, NIIS.PB-278 756 Burning coal in CPI Boilers. 1. How coal properties influence handling and combustion race-elements by instrumental neutron activation analysis for pollution monitoring Material handling systems for the fluidized-bed combustion boiler at Rivesville, We Georgetown University atmospheric fluidized-bed presentation, NTIS.CONF-770447-P-1 Application of coal petrography to exploration, preparation and sales at Pittston Coal minerals bibliography, Final Report, June 1977 - July 1978, NTIS.FE-2692-5 H-Coal fluid dynamics topical report, Part 1: Literature search, NIIS.FE-2588-6 From the receiving hopper to the furnace -- 2. Coal handling at the plant site Filter presses used in British coal mining for dewatering flotation tailings The preparation of polished sections and the structure of natural coal Development of fluidized-bed combustion systems, NTIS.CONF-770447-P-1 Final report on the U-O2 phase III Proof test series, NTIS.FE-2248-21 Fluidized bed combustion for steam raising and power generation The manufacture of industrial-fuel-gas from coal on small scale Nuclear activation logging for aluminum in iron-ores and coal Update on slurry transportation from face to cleaning plant South-Africa's coal gasification: Prospects for the future [race-e]ement measurements at the coal-fired steam plant Coal Research and Development in Canada - 1968, ARC.448 Coal Research and Development in Canada - 1969, ARC.494 Chloride corrosion and its inhibition in refuse firing Hot sulfur removal from producer-gas, NTIS.PB-231 977 Coal-feed component testing for CDIF, NTIS.N78-13262 Coal transportation research and information needs coals from Western Pennsylvania, PSU.SR-110 Role of producer-gas in replacing fuel-oil State-of-the-art of Fluidized combustion MHD-ETF design criteria, NTIS.FE-2363-1 Coal research in Canada - 1967, ARC.415 Coal research in Canada, 1963, ARC.265 Producer-gas and its application Burning coal in fluidized-beds Volume 1, NTIS.HCP/T2455-15/1 Pipelining-coking coals program, FE-2291-16 NTIS.LETC/RI-78/5 212 185 192 216 166 192 0278 116 106 0677 235 0678 108 9 48 28 13 92 0179 39 0578 84 3 12 4 0174 44 0 0 0878 7 8160 0673 8490 0678 0678 6290 0878 1078 1078 0175 0678 9220 1073 2190 919 7790 7790 0677 7790 7190 7190 0678 0877 0877 0878 0964 8960 6960 0970 1077 3378 PRODUCER GAS 0171 0177 0177 PRESSES PROBES

Testing, evaluation, and development of valves for lockhopper service in coal conversion processes by the U.S. Coal gasification project: Douglas site, Pike County, Kentucky. Annual report, April 1977 - March 1978, Applications of cross polarization magic-angle spinning carbon-13 NMR to in-situ coal gasification. A study of the state-of-the-art of instrumentation for process control safety in large-scale coal fluidized-bed combustion systems. Final report, NTIS.ANL-76-4 Ceramic coatings for components exposed to coal-gas environments: A review, NTIS ANL-76-124 High-temperature gas treating process. Final report, June 1976 - July 1977, NTIS.FE-2349-14 Desulfurization technology in coal preparation and coal utilization, WVA.125 Processes for converting coal into gaseous and liquid fuels, AIME.SPE 4158 An engineering assessment of entrainment gasification, NTIS.MERC-RI-78-2 Dynamic simulation of coal conversion plants, NTIS.CONF-761104 Field implementation of UCC research, NTIS.CONF.NO: 790630 Coal dasification for dual cycle power generation Liquid-Fuels from coal, from R & D to an industry Department of Energy, NTIS.METC/SP-79/5 gasification, liquefaction, and NTIS. CONF., NO: 790630 NTIS, FE-2570-12 160 249 0178 218 291 STATE OF THE ART 0176 103 0179 119 0179 132 52 0179 81 0176 0176 0177 0178 0178
